

area

The shopping areas of Milan have been split into three sections:

Via Torino

Via Torino and surrounding streets are also good for mainstream footwear stores.

Vittorio Emanuele II

The main shopping area begins at the Piazza Duomo where the best department store La Rinascente is situated. The pedestrianised Vittorio Emanuele II and surrounding streets are a must. Milan's chicest shopping street Via Della Spiga along with Via Monte Napoleone and their adjoining roads are full of upmarket designer boutiques.

Corso Buenos Aires

A mid market shopping street between Viale Tunisia and Via Nicola Piccini. Some good shoe stores but just about all of these can be found on the main Vittorio Emanuele II map so miss out this area unless you have lots of time.

Corso Como

Corso Como is a short fashion street close to Garibaldi train/ metro station. The best shop here is No.10, Corso Como. It is very individual and carries top end designer labels plus one off lifestyle pieces. It is similar in concept to Jeffreys in New York and Colette in Paris. Five minutes away is another good shoe store, La Vetrina on Via Statuto.

getting around

Milan is small enough to cover on foot as the main shopping areas are all situated close to the centre of town. If you get time, the view from the top of the Duomo is worth the climb.

opening hours

Store hours are generally between 09:30 and 19:30 many take a lunch break between 13:00 and 15:00. Some stores close Saturday afternoon but more typically they are closed all day Sunday and Monday morning. The department stores do not close for lunch.
