

## area

Although Brussels is architecturally and historically a wonderful city, over the last few years footwear retail has become rather lack lustre. Antoine Dansaertstraat is the place for the avant garde and Belgian designer brands. Rue Neuve and Nieuwestraat is the home of the mainstream stores. International designer brands are best found on top of the hill on Avenue Louise and Boulevard de Waterloo. We recommend going to Antwerp instead if at all possible.

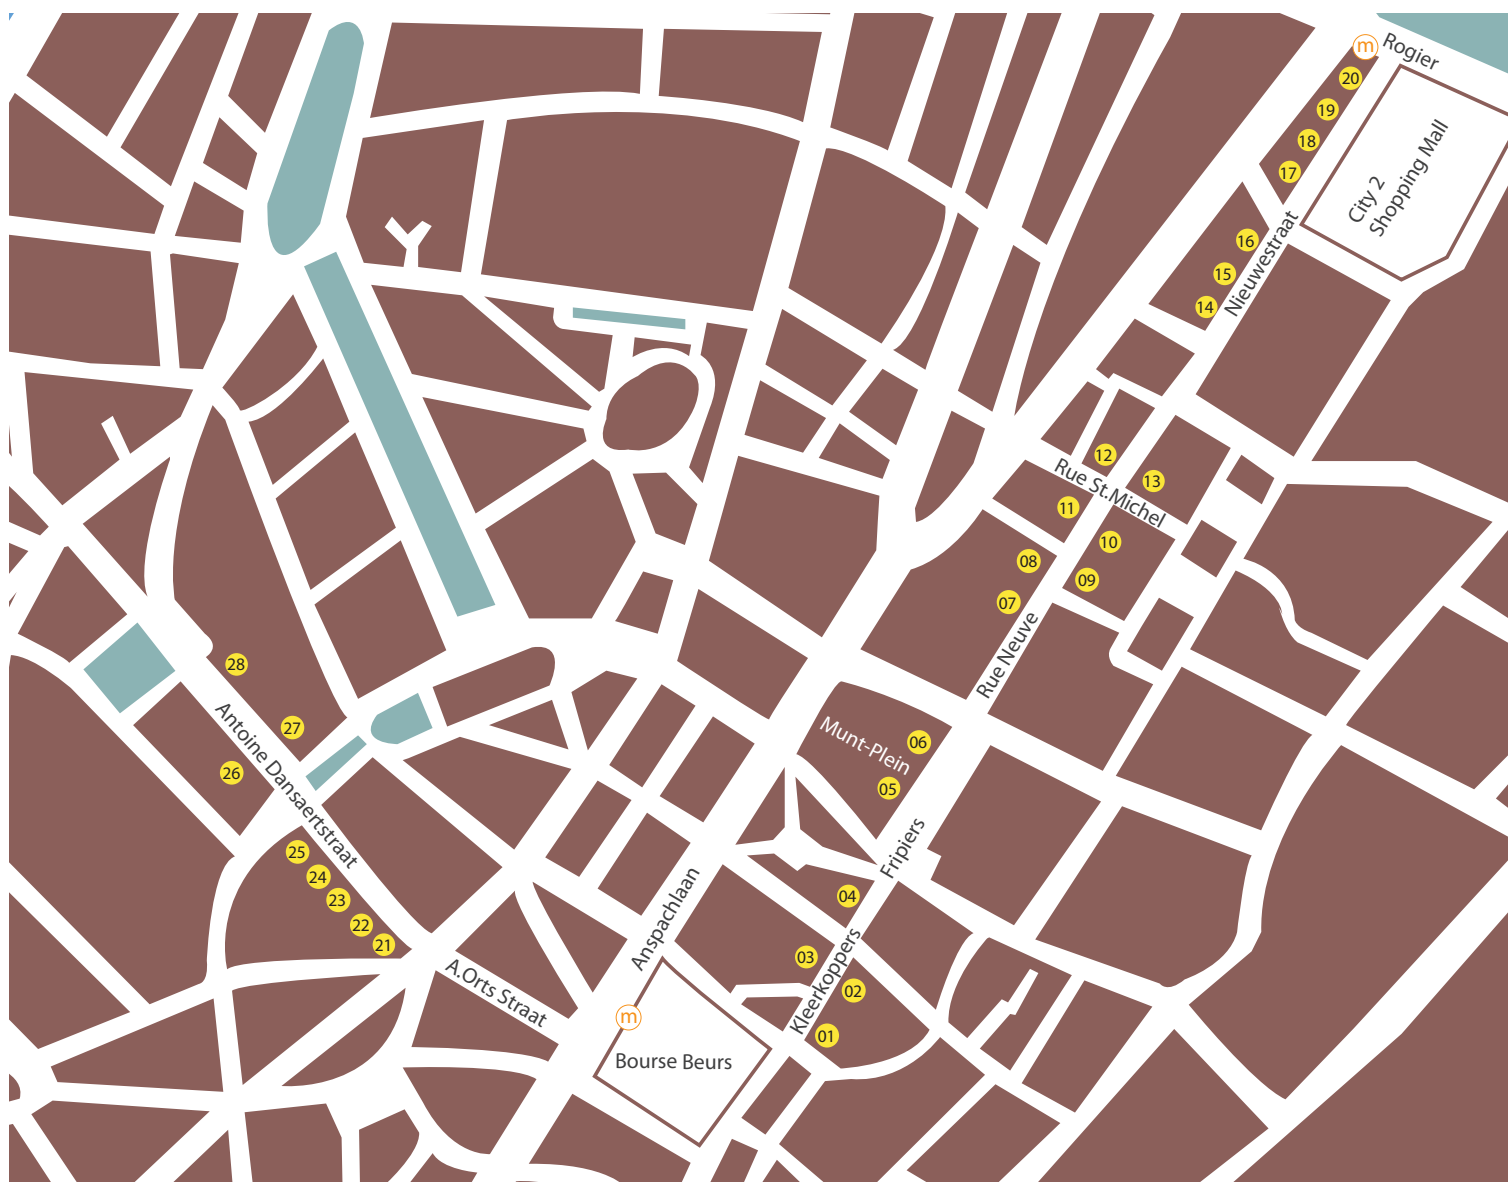

## getting around

Brussels can be covered in half to one day. Take the metro between the shopping areas.
